

KSHITIJ RAJ

Student Brand Ambassador • Esports & Event Operations • Community QA • Project Coordination

+91-9304355202 | kshitij.raj.96@gmail.com | Kolkata, West Bengal
linkedin.com/in/imkshitijraj | github.com/imkshitijraj

PROFILE

BCA undergraduate with hands-on experience in esports operations, brand activations, independent gameplay QA, and end-to-end project coordination. Demonstrated ability to manage cross-functional responsibilities, structured documentation, and delivery timelines across freelance and academic roles. Foundational exposure to machine learning and a track record of self-directed learning through industry simulations and certifications. Targeting operations, project management, and community roles within digital entertainment and technology companies.

SKILLS

Project & Event Management

- ▶ End-to-end project delivery
- ▶ Timeline & deadline management
- ▶ Stakeholder coordination
- ▶ Risk identification & resolution

QA & Community Operations

- ▶ Gameplay testing & bug triage
- ▶ UX & player feedback analysis
- ▶ Issue documentation & escalation
- ▶ Community coordination

Technical

- ▶ HTML, CSS, JS — Working knowledge
- ▶ Python — Working knowledge
- ▶ Machine Learning — Foundational
- ▶ Responsive web design

PROFESSIONAL EXPERIENCE

Student Brand Ambassador

May 2026 – Present

The Esports Club (TEC) • TEC Spartans • Bengaluru / Kolkata – Hybrid • Freelance

- ▶ Plan and execute regional esports activations end-to-end, managing timelines, stakeholder coordination, and on-ground delivery
- ▶ Track action items and deadlines across multiple concurrent event responsibilities, ensuring no task falls through during live operations
- ▶ Serve as single point of contact between TEC's national operations team and local community, managing communication flow and expectation alignment
- ▶ Identify operational bottlenecks during event execution and implement real-time workarounds to maintain delivery timelines
- ▶ Maintain documentation of regional activities, outcomes, and feedback to support team reviews and future planning

Independent Gameplay QA & Community Feedback Contributor

May 2025 – Present

Free Fire MAX India • Independent

- ▶ Managed an independent QA workflow over 15+ months — self-assigned testing cycles, structured documentation, and tracked issue resolution across game releases
- ▶ Prioritized bug reports by severity and user impact, applying a structured triage process to direct attention toward high-priority issues first
- ▶ Maintained version-wise records of reported issues to monitor resolution status, identify recurring defects, and measure platform improvement over time
- ▶ Operated without supervision across the full reporting lifecycle — from issue discovery and documentation through escalation and follow-up

Intern — Machine Learning using Python

Jul 2025 – Sep 2025

Euphoria GenX • ISO 9001:2015 Certified • Remote • Techno India College of Technology

- ▶ Completed a structured ML internship working on an AI Financial Market Data Project using Python
- ▶ Applied Python-based tools to process and analyze financial market datasets as part of a defined project deliverable
- ▶ Gained exposure to ML workflows, data preprocessing, and model training within a supervised project structure

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2027 (Expected)

Techno International New Town, Kolkata

Class XII Swarajaya Senior Secondary School, Alwar • NWAC Board • 78% • 2023

Class X De Nobili School, Chandrapura • ICSE Board • 78% • 2021

PROJECTS

NEXUS — Project & Workflow Management Platform

Product Design • 2025–2026

Project Management • Workflow Automation • Analytics • Integrations

- ▶ Conceptualized and designed a project management platform to centralize task tracking, collaboration, documentation, and workflow automation
- ▶ Defined automation features: deadline reminders, approval escalation, recurring tasks, risk alerts, and automated status updates

- ▶ Planned integration architecture for Google Calendar, Gmail, Slack, GitHub, and Google Drive with webhook extensibility
- ▶ Developed product requirements, feature prioritization framework, and phased deployment roadmap for enterprise use cases

INCUBES - Inter-College Event Website

HTML, CSS, JavaScript · tint.edu.in/incubes · 2024

- ▶ Led end-to-end project delivery for a live college event website — from requirement gathering and planning through development, testing, and launch for a fest with 300–500 attendees
- ▶ Defined project scope, assigned responsibilities across the team, and monitored progress against a fixed event deadline
- ▶ Managed competing priorities between technical development and coordination tasks, delivering on time with no scope reduction; site remains live at tint.edu.in/incubes

CERTIFICATIONS & TRAINING

Accenture North America — Project Management Job Simulation

Nov 2024

Forage · Completed end-to-end PM simulation covering project planning, stakeholder communication, and delivery tracking

GMAT Focus — Quantitative Master Math Course

May 2026

Udemy · Quantitative reasoning and analytical problem-solving

Complete Course in Python · Complete Course in CSS · Complete Course in JavaScript

Udemy · 2024

ACHIEVEMENTS & RECOGNITION

Remarkable Performance — AI vs Human Debate Contest

Critical thinking & argument under pressure

Dec 2025

Tech-A-Thon Participation — PRABUDDHA 2026

Inter-college technical competition

Apr 2026

Entrepreneurship Workshop

Kolkata Entrepreneurship Workshop

Jan 2026

Blockchain Technology Workshop

Two-day industry workshop on blockchain fundamentals

Jun 2024
